Conflict Minerals Statement

AEB International is committed to implementing programs and processes that promote environmental sustainability and social responsibility. It is AEB International's policy to prevent the sourcing of certain "Conflict Metals" that are incorporated into our products.

Conflict Metals are defined as Tantalum (Ta), Tin (Sn), Gold (Au), and Tungsten (W), or any other mineral or its derivatives determined by the Secretary of State to financing conflict in the Democratic Republic of Congo (DRC) or an adjoining country. AEB International and our suppliers do not knowingly use any metals originating from Conflict Mines.
